

Potential Northern Goshawk Habitat Based on Current Cover Types

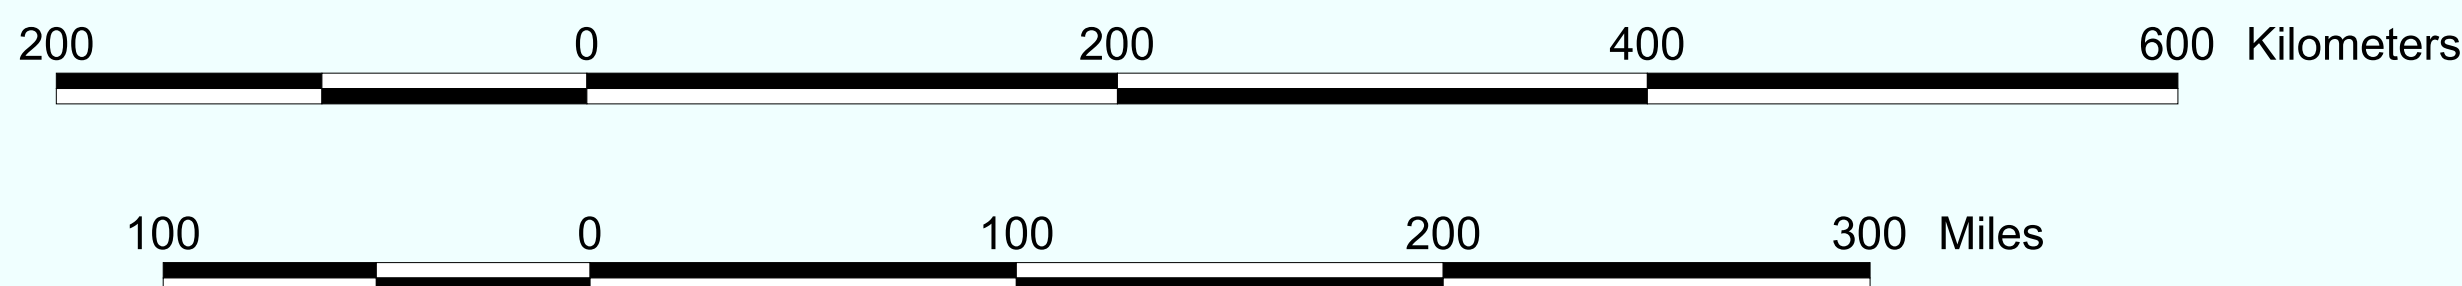

LEGEND

Landcover types

- Ponderosa Pine
- Douglas Fir
- Larch
- Lodgepole Pine
- Fir - Spruce

National Forest System

- Inventoried Roadless Areas
- National Forest Administrative Boundaries

Credits

Inventoried Roadless Area data supplied by individual National Forests. Contact the National Forest Offices for further information.

Projected in Albers
Updated: July 17, 2000

Landcover types were derived from Current Cover Types, v1.0 developed by USGS EROS Data Center and USDA Forest Service Southern Research Station. Cover Types v1.0 was derived from two remotely sensed classifications based on biweekly composites of the Normalized Difference Vegetation Index (NDVI) derived from daily Advanced Very High Resolution Radiometer (AVHRR) satellite images collected during one vegetative growing season.
